Book Ball Ornaments

Have a little piece of Jane hanging anywhere, at anytime! These are handcrafted 3-inch circular clear ornaments filled with hand-trimmed pieces of both dialogue and scenery from all six of Jane's published works. Each is topped by a differently colored ribbon, as well as a tag listing the name of the novel whose text fills that ornament, along with the name and signature of the crafter, Alethea White-Previs. The ribbons' colors are based loosely on the heroes of each novel. Click on each image to see a larger version.

Confetti

Add a sprinkling of book confetti, whenever, wherever! These are small bags of confetti made from the pages of different novels. For the winter season, the confetti is snowflake-shaped; the shapes will change with the seasons (and no shape is guaranteed unless specifically requested when your order is placed). The confetti can be sprinkled in handwritten letters, as a decoration on a small table at an event, or simply as goodie bags for bridal showers or any get-together! Each bag of confetti contains three pages' worth of text from a variety of novels. Click on each image to see a larger version.
